

**JOB TITLE:** Laboratory Technician I, Full Time – Hanover, MD.

Noxilizer, a pioneer in the development of a new sterilization technology, is seeking a Laboratory Technician I. Work in a creative team environment for a small, fast-paced, growing medical device manufacturer. Join a high-performing team of microbiology and material compatibility leaders to solve sterilization challenges.

**MAJOR DUTIES AND RESPONSIBILITIES:**

- Perform basic laboratory tasks such as:
  - Prepare, test, and analyze material for laboratory product development,
  - prepare sterile solutions,
- Perform routine environmental monitoring, cleaning, maintenance.
- Follow all company policies, Federal, State and local regulations and policies for Safety, Health and Environmental compliance.
- Complete other tasks as assigned by laboratory management.

**EDUCATION and EXPERIENCE:**

- Recent graduate,
- Bachelor's degree in biology, Chemistry or related field preferred.

**SKILLS:**

- Ability to prepare documents for laboratory products, collect and analyze data, maintain a detailed laboratory notebook.
- Ability to execute and complete test plans and study protocols for laboratory product production while ensuring compliance with laboratory policies and procedures.
- Can perform routine equipment operation, calibration and maintenance on Noxilizer analytical equipment and test equipment.
- Ability to maintain product inventories and prepare purchase orders for supplies.
- Familiarity with basic laboratory skills: weighing samples, measuring sample volumes, pipetting aliquots of samples, experience with laboratory instruments and general lab hygiene.
- Operation of Microsoft Office software: Word, Excel and PowerPoint.
- Ability to read, understand and follow written laboratory procedures.
- Oral and written communication skills to present data and convey information.

Noxilizer offers medical, dental and 401k benefits and is an Equal Opportunity Employer (EOE). Relocation expenses will not be compensated. Please submit resume and cover letter for consideration to: [zkrogers@noxilizer.com](mailto:zkrogers@noxilizer.com), subject line: Laboratory Technician I.
